Watermelon – Super Sweet Treat!

Math Grades 3-4

**How many states grow watermelons?**

Locate the points on the grid, color in each box, and discover the answer to fill in the blank below.

(2,8) (4,4) (8,4) (9,8)
(4,8) (2,6) (7,8) (9,6)
(7,6) (2,4) (7,7) (8,8)
(9,7) (3,8) (4,7) (4,6)
(3,4) (9,5) (7,5) (3.6)
(9,4) (4,5) (7,4)

**Count quickly by skipping numbers.**

For example, when you count by 3s, you count 3, 6, 9, 12 and so on.

This time, count by 2s and fill in the spaces.

0, ___, ___, 8, ___, 14, ___, 20

Buzz is on his way to the watermelon blossom. Solve the problems. Color boxes with answers that are 148 or 693 and show him the path.

1. Six friends ate watermelon. Each one ate \( \frac{1}{6} \) of a watermelon. How many watermelons did they eat? Write it as a decimal. ________

2. A farmer planted 7 rows of watermelon plants. Each row had 25 plants. How many did he plant? ____

4. Joe had 60 watermelons to sell. He sold half of them this morning. He sold half of what was left in the afternoon. How many watermelons did he have at the end of the day? ____

More than _____ U.S. states grow watermelons.
